Did you know?

- Our signs can also be made to measure to fit within a specific size.
- Every design has been individually created by our own design team.
- All above prices are for stainless steel signs that never rust.
- We design and manufacture village signs and public works of art.

# Bespoke & Personalised Sign Designs

We welcome bespoke design requests to your brief or a portrait based on your supply of appropriate photographs, drawings, or simply a verbal description of what you would like included within your sign design. Our professional and experienced design team will then transform your ideas into a working drawing.

Your design will be created and proof supplied to you for your approval, or requested modifications, prior to commencing upon the cutting out of your design and manufacture of your sign to the style and size of your choice.

For a full quotation we would need to confirm: a), the style of sign you would like (plus any optional extras), b), your mounting choice and c) your lettering preferences. We will then supply you with a quotation for the design and manufacture of your bespoke sign. Please contact us if you would like any advice or suggestions.

Unless otherwise stated during the enquiry, all bespoke designs will be included in our 'Stainless Steel Collection' and include a 15 year guarantee.

Once a quote as been supplied and approved we will create this proof and either email this to you or publish on our online store.

Costs of bespoke designs vary depending on the complexity with some offered free of charge. Indicative bespoke & personalised sign price examples:

Re-working and modifications/alterations on an existing design (such as inclusion, replacement and/or removal of animals & people on an existing design). Typical cost - - - £50.00 inc. VAT

To supply a visual of an existing design in an alternative style of sign (I.e. transforming an existing framed sign to a Road Entrance Sign). Typical cost - - - £50.00 inc. VAT

New designs such as working from photographs, sketches etc. Including logos. Typical cost - - - £100.00 inc. VAT

Black Forge Art retain the rights of any created designs. Our designs are created for the intention of manufacture. Designs cannot be created and used by a third party. Customers can request that any created design and subsequent creation of metal artwork is created 'privately' and will not be published on any website or social platform.

## Further Information

All Signs included in our 'Stainless Steel Collection' are rust- proof and come with a 15 year guarantee. Terms and conditions apply.

All Signs are exclusively manufactured by hand, in the UK, by Black Forge Art.

Materials are carefully sourced and considered to ensure the highest quality of construction.

All signs are 'tig' welded by our manufacturing team using 316 grade stainless steel filler to ensure a discreet and beautifully engineered finish.

Each commission is treated individually, with appropriate thicknesses and size of material to suit the style and size of the sign ordered. Our team will always ensure appropriate use of materials to ensure each sign is visually impressive and equally structurally sound.
